Django Origin

Django Origin

PHP

Django's father is PHP

Django Origins

2003

- Web department of the Lawrence Journal-World met Python
- Multiple web apps
- “The CMS”

1. Write web app 1
2. Write web app 2
3. Realize app 1 shares much in common with app 2
4. Refactor the code so that app 1 shares code with app 2
5. Repeat steps 2-4 several times
6. Realize you've invented a framework

Django Origins

2005

- Public release
- 0.9.1
- BSD license
- “Django Reinhardt”
